PROPERTIES

- 

EASY WATER CLEANING
At the production stage, the fibres are covered with a special finish that protects the fabric from dirt penetration. Thanks to this, all stains are quickly and efficiently cleaned.
- 

WATER REPELLENT
A technology of covering the fabric with a special hydrophobic coating that effectively hinders the absorption of spilled liquids, leaving drops on the surface of the material.
- 

PET FRIENDLY
Products from this group have undergone special laboratory tests to check resistance to snagging caused by scratching. They are very durable and easy to clean.
